## Unibilt Plant Tour

Unibilt Industries hosted a tour of their plant April 15. Numerous officials attended the tour including Mayor McLin and Commissioner Whaley from the City Of Dayton, City Manager Brad Townsend, Commissioners Robinson, Bowers and Folker and Planning Director Greg Gaines from the City of West Carrollton and City Planner David Roller and Kip Bohachek from the City of Kettering.

Attendees from National City included Dan O'Donnell, Senior Vice President for Commercial Real Estate, Marya Rutherford, Vice President for Community Reinvestment and Eric Loudon, Vice President for Community Development. Greg Snyder and Karen DeMasi, Neighborhood Development and Nicole Steele, Project Manager represented CityWide Development Corporation.

Unibilt Industries is the Litehouse builder. Unibilt modular homes are highly insulated, contributing to the homes' energy efficiency. These homes are built in a quality controlled indoor environment reducing construction waste. Unibilt is a Litehouse partner, providing a discount for the demonstration homes.

Many thanks to Anthony Whitmore, Director of Community and Government Relations for Greater Dayton RTA, for generously supplying a bus for the tour. Tour attendees from the municipalities and other entities were able to ride together and become acquainted with one another. It also kept numerous cars off the road, reducing emissions.

## Litehouse Website

We recently launched <http://www.LitehouseLiving.com>. The website contains information about Litehouse homes, including renderings and floor plans, identifies neighborhoods in various municipalities for potential homebuyers, provides information about media coverage and lists Litehouse sponsors and partners. In the future, information will be added for Litehouse homeowners.

**LiteBites** are produced by the Litehouse Development Group to provide the latest information about the Litehouse homes, and the responsible approach to home building, by delivering an affordable, energy efficient, and sustainable home concept to the market.
