VMA Wins Grant to Create Litehouse Educational Materials

On behalf of CountyCorp and the Partnership for Affordable Sustainability, Visual Marketing Associates has received a grant from the Sappi Ideas that Matter Program to develop print communication and educational materials for the green affordable Litehouse demonstration homes project. The materials include a homebuyer’s manual, homebuyer workshop curriculum and expanded interpretive signage.

“This grant will make additional educational and informational materials available reaching more individuals throughout the Dayton region. With the current challenge facing the housing industry communicating the differentiating green, affordable Litehouse story is essential to its success,” said Ken Botts.
